

Student Health Decision Tree

We're working to help you make the best decision possible! Please note that you are looking for new or worsening symptoms when you assess your child. The following is used with permission from the Washington University School of Medicine.

Low risk symptoms

Fever ($\geq 100.4^{\circ}\text{F}$)

Sore throat

Congestion/runny nose

Headache

Nausea/vomiting/diarrhea

Body aches

High risk symptoms

Cough

Difficulty breathing

Loss of taste/smell

Exposure to COVID-19 positive person?

Close contact: less than 6 feet, more than 15 min

NO

▶ 1 **low risk** symptom

Stay home

Return to school 24 hr after symptom resolution

▶ ≥ 2 **low risk** symptoms
OR 1 **high risk** symptom

Stay home

Evaluation by Healthcare Provider

1

Healthcare provider confirms alternative diagnosis for symptoms. A healthcare provider's note must be on file.

Return to school after 24 hours without fever and symptoms improving

2

Negative SARS-CoV-2 PCR test

Return to school after 24 hours without fever and symptoms improving

3

Positive SARS-CoV-2 PCR test

Return to school only after 10 days since symptoms onset, 24 hours without fever, and approval of local health department; quarantine contacts

YES

Stay home

Return to school after 14 days from last contact unless symptoms develop. If symptoms develop, perform SARS-CoV-2 PCR test
