To Students:

We are thrilled to offer a program of studies that is uniquely suited to helping you in your journey to grow and develop into lifelong learners and leaders. The next few years are your passport to the future. The decisions you make will determine your opportunities for a college education, scholarships, and a career. This will be a time of self-discovery. You will learn about your life calling and abilities that make you an individual. Most importantly, you will begin to discover the gifts that God has given to you and how they fit in His plan for your life. In order to assist you in this process, Plymouth Christian is providing this Course Description Catalog to assist you as you plan for a bright future.

We enjoy a family atmosphere at PCA, rich with traditions and many unique experiences and opportunities for community. We work hard to provide the best possible experience for every student here and we love what we do.

As leadership, faculty and staff, we passionately love the Lord and we are deeply committed to help you develop a perspective on living and life that is based upon the truths of Scripture. We value the time we have with you and invite you to join in on “life” at Plymouth Christian featuring Murray Lake Day, the Variety Show, Spirit Week, Spiritual Life Retreat, Career Day (every other year), Class Trips, Senior Trip to Costa Rica, Sophomores to DC, and more!

God is preparing a special journey for you and we know that there is wisdom in much counsel. This Guide will assist you in the decision-making process, but you also need to trust the voice of experience. Do not go at it alone. Count on the counsel of your parents, pastors, and teachers. Use this guide as a launch pad for discussion with your parents. Listen, ask questions, and read and develop the best individual plan for your life. You, the student, and your parent, will make the final choices. You will determine your life goals and academic excellence.

Plymouth Christian Academy is pleased to be in a partnership with you, your parents, and your church in preparation for your future, and we are here to serve you. Educational offerings and requirements are frequently changing. Stay informed. Parent meetings and counseling sessions are available through the Counseling department. Feel free to contact the Counselor for the latest updated information.

Let’s work together to make this time of your life a fantastic adventure.

Educating for Eternity,

Mrs. Caryn Huntsman, Superintendent/Secondary Principal

Mrs. Dana Zambeck, School Counselor

MISSION STATEMENT

Plymouth Christian Academy, in partnership with parents, seeks to educate students from a biblical worldview and equip them for a lifetime of learning, leadership and service.

PURPOSE STATEMENT

The purpose of PCA is to produce students matured in their love for God, steeped in His word, educated about His world, dedicated to lives of service and learning, and prepared to fulfill their calling in His kingdom.

We aspire to graduate students with a Christian worldview who live out expected student outcomes. These outcomes reflect the core values and mission of Plymouth Christian Academy and serve as a foundation for life.

Academic Preparedness:

1. Educated in all academic disciplines, and are skilled in reading, writing, speaking, listening, and thinking
2. Possess and apply vocabulary appropriate for effective communication and understand the significance of speech as we communicate with others and with God
3. Demonstrate content mastery in each subject area to allow critical thinking, higher order inquiry and further learning in preparation for post education endeavors
4. Demonstrate the use of technology to communicate, find, analyze and evaluate information in a God-honoring manner
5. Appreciate literature and the arts and understand how they express and shape their beliefs and values
6. Committed to lifelong learning

Spiritual Foundation:

1. Trust Jesus Christ as personal Savior
2. Personally act upon and share the Good News of salvation throughout our community and in the world
3. Apply biblical principles for conflict resolution God's way
4. Understand the worth of every human being as created in the image of God and care for the needs and feelings of others
5. Evaluate and articulate the distinctions among competing worldviews and evaluate them in terms of a biblical perspective
6. Know, understand, and apply God's Word in daily life
7. Possess and practice apologetic skills to defend their faith
8. Pursue a life of faith, goodness, knowledge, self-control, perseverance, godliness, brotherly kindness, and love
9. Treat their bodies as the temple of the Holy Spirit
10. Actively involved in a church community, serving God and others
11. Evaluate strengths and weaknesses and recognize and develop Godly character and leadership skills, first in themselves, then within our community
12. Rely on Christ as THE Example

Social Interaction and Global Engagement:

1. Express a knowledge and an understanding of people, events, and movements in history and engage with others in our community and world in a culturally sensitive manner
2. Summarize the influence of the Christian faith throughout the history of civilization and culture and explain how the person of Jesus Christ impacted the course of history
3. Demonstrate ability to actively listen to others and demonstrate effective interpersonal skills

Critical and Creative Thinking

1. Recognize and evaluate his/her own learning styles and set goals to improve one's ability to gain, process and assimilate information
2. Compare, contrast and apply biblical principles and beliefs in a variety of fields
3. Select and evaluate appropriate evidence to support or discredit an argument or position
4. Construct a persuasive argument and apply sound reasoning, support and evidence of such
5. Demonstrate creative problem-solving skills

School Counseling and Educational Services

Our counseling program works in partnership with parents, teachers, and administrators to help each student reach his or her academic potential through guidance related to personal, social, spiritual, career related and academic concerns. Our goal is to ensure that our students obtain a successful secondary educational experience! We also strive to make certain our students receive ongoing support as they search for and apply to colleges. With essentially 100% of our graduates attending a college or university, we work diligently with our students and families to encourage them through the college planning process. We offer resources and advice to find the best college match for our student's God-given abilities and interests while developing their gifts, passions, and goals. It is an honor to provide guidance and support for each student and family as they make well-informed and wise decisions for the future.

Counseling Statement

Using a Biblical foundation, our Secondary Counselor's approach is based on solution-focused brief and cognitive-behavioral counseling theories. Solution-focused brief counseling is positive and is focused on finding solutions not problems; behavior is the cause, not the student. We help students identify behavior, thoughts, and feelings that hinder their academic, personal/social, and career development. Delivery of services may include group counseling, individual counseling, classroom guidance, consulting, or referral services.

Educational Development Plan

An Educational Development Plan (EDP) raises awareness of the relationship between career goals and the credentials required to attain those goals. An EDP is a helpful tool for parents and students to utilize when registering for classes. All students must complete an EDP early in the first semester of each school year. Parents are encouraged to ask their children about their EDP to discuss future aspirations.

Naviance

As part of the State of Michigan "online experience" requirement, our students dedicate time on a web-based career exploration and planning system (<https://student.naviance.com/plymouthca>) that encourages them to consider and plan their respective futures. Students use assessment tools to determine which careers are a best fit for them, then explore detailed occupation profiles and examine comprehensive post-secondary education information.

Counseling News

The "Counselor's Desk" section of the weekly Eagle's Parent Newsletter contains important and timely information. Please review this area for the latest information regarding meetings, college resources, educational information, scholarship opportunities, financial information, etc. Families receive the Newsletters via email.

2021-22 Testing Dates: Please review the Summary of Testing on the following page for important information on the various testing.

Educational Services

While PCA offers support for students who have learning challenges within the classroom by using purposeful methods of helping the student, it sometimes becomes necessary to make accommodations to the existing program to meet the educational needs of our students. These accommodations may include accommodations within the classroom or in the Learning Lab. If you have concerns in this area, please contact our School Counselor or Educational Specialist.

SUMMARY OF TESTING – 2021-22

NAME OF TEST	PURPOSE OF TEST	WHEN GIVEN	WHO PARTICIPATES	LOCATION OF TESTING	APPROX. COST
M.A.P.	Assess student progress	Fall, Winter, Spring	K - 6th grade	PCA	Included in tuition
M.A.P.	Assess student progress	Fall, Spring	7th-9th grade	PCA	Included in tuition
Pre-ACT	Practice for the ACT	October 13, 2021	10th grade	PCA	Included in tuition

67 - 69	D+	1.3
63 - 66	D	1.0
60 - 62	D-	0.7
0 - 59	F	0.0

Dual Enrollment

Plymouth Christian Academy Sophomore-Junior-Senior students may elect to take college level work through **Concordia University-Ann Arbor (CUAA)**, **Schoolcraft College**, **Spring Arbor University**, **University of Michigan**, and/or other local colleges. Dual enrollment allows students to earn both high school credit as well as university credit for select courses. These colleges offer a large variety of classes that are eligible for Dual Enrollment. For a current listing of courses being offered, please see the Secondary School Counselor.

Students who wish to be dual enrolled must meet the following requirements:

1. Student must be in good academic standing.
2. Student must obtain the signed approval of the counselor before taking a class outside of PCA. Classes that are taken without the consent of the counselor may not be accepted.
3. Depending upon the course taken, the student may be responsible for any required fees and tuition to the college. The State of Michigan will not pay for a core class (Math, English, Social Science, and Science) that is for high school credit. Additionally, the State of Michigan will not pay for any theology classes.
4. The student must be pre-approved and complete the appropriate college application.
5. Students and parents can decide to use the credit for high school graduation requirements or for college credit.

The student is responsible to check with the college of their choice on whether the course work completed in the dual enrollment class is acceptable for college credit. PCA will allow credit for high school which could (with permission from the college) be used for undergraduate credit. Minimum requirements exist for admittance to this program. The grades received in these courses are the grades that will be recorded on the high school transcript. Special scheduling to allow enrollment in college classes cannot be guaranteed.

Online Learning

Plymouth Christian Academy high school students may elect to take courses on-line within the following guidelines:

1. If PCA offers the class, students must take the class at PCA, unless there is an unavoidable scheduling conflict.
2. Student must be in good academic standing at PCA.
3. Student must obtain the signed approval of the PCA counselor and administrator before signing up for any on-line class.
4. The online class must be set up to issue a final grade, which must be submitted to PCA upon conclusion of the class.
5. Parents will cover the cost of the course.

Off Campus Academic Source

Plymouth Christian Academy high school students can elect to take a class at off campus academic locations (e.g. public school), within the following guidelines:

1. If PCA offers the class, students must take the class at PCA, unless there is an unavoidable scheduling conflict.
2. Student must obtain the signed approval of the PCA counselor and administrator before signing up for any class held at other academic locations.
3. An official transcript must be submitted to the PCA counselor at the completion of the course in order to have the grade transferred to the student's PCA transcript.
4. Parents will cover the cost of the course.

Advanced Placement Program

The Advanced Placement (AP) program is a cooperative endeavor between secondary schools and colleges/universities. It allows high school students to take college level academic courses and gives them the opportunity to demonstrate academic mastery through the AP exams. Depending on university requirements, students may have the opportunity to earn college credit with their AP exam scores. Students must check with the universities of their choice to ascertain advanced placement policies.

AP courses make substantial academic demands on the student. They are required to do a considerable amount of outside reading and other assignments. This helps students learn study skills and habits that are valuable throughout their college years. Further, they must demonstrate the analytical skills and writing ability expected of first-year students in a strong college program. Our goal for the PCA AP Program is to provide classes that challenge those students who demonstrate an ability and desire to meet the demands of a college level class.

Grades in the AP courses will be recorded on the high school transcript based on a 4 point scale. However, a student's calculated GPA on the transcript will include the grade based on a 5 point scale.

The students will be expected to take the national AP Exam in the spring. Students are responsible for covering the cost of the exam when exams are ordered in October.

Placement Criteria for EACH Advanced Placement Course

1. Students must have a year-end average of 92 in the subject area or a teacher recommendation.
2. A writing sample may be required from the AP teacher for review.
3. Counselor approval must be obtained for each AP course.

AP Courses Available:

AP Biology	AP US Government
AP Calculus	AP US History
AP Chemistry	AP Psychology
AP English Language	AP Spanish Language
AP English Literature	AP Spanish Literature

Graduation Requirements

Total Credits Necessary to Graduate = 26

Michigan Merit Credits	(+)	PCA Core Curriculum Credits	(+)	General Elective Credits	=	26 credits
18	+	6	+	2		

1 semester (1/2 year) = .5 credit

Plymouth Christian Academy Graduation

Graduation from Plymouth Christian Academy requires a student to complete the required credits for graduation with at least the senior year being spent at PCA. All students must take a minimum of 3 credits each semester (6 credits for the year) for freshman, sophomore, and junior years. Seniors are required to take at least five *academic* classes each semester to be considered a full-time student at PCA. Eligibility for early release will be determined by the student's academic record, attendance record, and conduct record.

All required courses failed in the ninth, tenth, eleventh, and twelfth grade must be made up prior to graduation. Students must complete a minimum of 26 credits to graduate.

A current list of graduation requirements and course offerings is available in this guide and online at www.plymouthchristian.org. It is important for students to check with the School Counselor each year to be certain they are meeting graduation requirements. Since college admission and scholarship acceptance requirements vary, please note that meeting the minimum graduation requirements may not meet the requirements of some post-secondary programs. Consult with your intended school of choice for additional information. Parent and student input are considered in course placement; however, the school reserves the right to place students based on course requirements and maximum class sizes. Grades, test scores and teacher recommendations play an important role in course placement.

Planning For Your Future

FRESHMEN Year Checklist

- Take the MAP test
- Join a sport, club or student government. It's never too early to begin a resume or potential references/recommendations for college.
- Start a portfolio to keep track of your activities, volunteer work, jobs and the names of a contact person for each. Write down your impressions, especially what you do and don't like about each activity. Gradually, you may begin to identify your interests or a potential college major.
- Check out web sites of your 'dream' colleges. What are their admissions requirements? Are you taking the right courses?
- Talk to your parents about how much money may be available for your college education. Not a lot? No problem IF you plan ahead.
- Meet with your counselor for a Freshman Visit to begin planning your High School career and discussing college goals.
- Make a list of academic and personal goals. Review them at least once a year.
- Create a file. Get a milk crate and some folders. Keep all your important papers, grades, magazine articles, scholarship opportunities and other pertinent work.
- Find fun and interesting ways to volunteer.

SOPHOMORE Year Checklist

- Take the PRE-ACT test.
- Focus on your GPA.
- Take AP exams for any AP classes completed.
- Review and revise your goals.
- Start a list of colleges to consider. Be sure to go to any college fairs in your area.
- Start a scholarship search.
- Update your records of activities, volunteer work, employment, programs, classes, and travels. File information you receive on colleges, scholarships and tests. Your interests may change as you get older and gaining more experience may help narrow your career focus. These activities are also great to list on resumes and college applications.
- Think careers! Talk to people about their jobs.

JUNIOR Checklist

- Concentrate on your GPA.
- Take the PSAT in the Fall, ACT or SAT in the Spring.
- Get information packets from the colleges you're considering.
- Intensify your scholarship search. Keep track of deadlines and requirements.
- Attend career days, college fairs and financial aid workshops.
- Meet with your counselor. Be sure your classes are on the right track for the colleges you're considering and that you're meeting graduation requirements.
- Talk to your coach if you want to play for a college team or apply for an athletic scholarship.
- Take AP exams for any AP classes you've completed.
- Create a master calendar of deadlines. Include college applications, test registrations and test dates, scholarships applications, housing, and financial deadlines.
- Zero in on which teachers, coaches, or pastors you want to ask for recommendations.
- Work on your resume.

SENIOR Year Checklist

- **Fall:** Last chance to take the ACT or SAT. Register early.
- Complete college applications, financial aid and housing applications.
- Make sure your high school transcripts and records are correct and up to date.
- Attend college fairs and financial aid workshops.
- Request letters of recommendation from teachers, employers and coaches.
- Finish essays for college applications and scholarships.
- Update your resume.
- **October:** Complete FAFSA (Federal Student Aid Form)
- **Winter:** Fill out financial aid forms. Apply for scholarships.
- **Spring:** Decide on a college and notify the admissions office by May 1st of your acceptance.
- Create a budget to determine your needs.
- Determine if you need a student loan. File your application.
- Complete your Senior meeting with your counselor.
- Take AP exams.
- Send final transcript to your college.

At Plymouth Christian Academy, we strive to maintain excellence in athletics, regarding sports as a key part of our comprehensive educational atmosphere. We have an experienced coaching staff that serves as Christian role models and examples of excellence.

Huron Valley Lutheran	Parkway Christian
Inter-City Baptist	Plymouth Christian Academy
Livonia Clarenceville	Roeper School
Lutheran – Northwest	Southfield Christian
Lutheran – Westland	Whitmore Lake
Novi Christian	

Plymouth Christian Academy

Secondary Course Descriptions

BIBLE DEPARTMENT

The foundation of instruction in the Bible begins with a total commitment to the inerrancy and infallibility of God's word. From the study of Creation in Genesis, the fall of humanity, to the life and message of Christ in the Gospels and his early followers in Acts and ultimately Christ's return and final redemption in the new creation, our goal is that our Kindergarten through Twelfth grade students will see God's plan of redemption for sinful humanity. Our objective is to guide each student to an understanding of the Gospel message and afford them the opportunity put their faith and trust in Jesus Christ for salvation through the Holy Spirit by repentance. Students will be thoroughly equipped in their knowledge of Scripture, memorizing key Bible verses and passages, unpacking biblical concepts and principles to apply to their lives, and being grounded in their identity as adopted, valued, and loved children of God the Father. Students will be taught to discern truth from error in opposing worldviews, instructed in Bible study skills, defending and sharing their faith in Jesus Christ, grounding their moral centers in God, strengthening their spiritual discipline, growing in wisdom and given opportunities to live out their faith through acts of service in the church and the surrounding community. Ultimately, students will be in an environment conducive to naturally developing a deeper, personal relationship with Jesus Christ and flourishing as they develop to adulthood by understanding God's design for human life.

GRADE SEVEN: A WALKTHROUGH THE OLD TESTAMENT (Learning the Character of God)

Prerequisite: none

Required for 7th grade

Full year

In this course, the students are presented with an Old Testament survey using Bible timelines with pictures and outlines. This will include a survey from introductory information featuring a study of geography through the exile, ending with Daniel. They will deepen their understanding of the characters and events of the Old Testament, while learning basic Biblical geography and characters. The students will be able to tell several key facts about each Old Testament character/event, and be able to identify important Biblical truths, including theology. The students will also learn specific Scripture verses that reflect the essence of the Old Testament books and they are encouraged to make personal applications in their own lives. Christian service is a very practical component bringing the students to maturity.

GRADE EIGHT: SURVEY OF THE NEW TESTAMENT (Learning the Character of God)

Prerequisite: none

Required for 8th grade

Full year

This course will survey the entire New Testament, starting with Haggai in the Old Testament and concluding with Revelation in the New Testament, with an emphasis on how Jesus Christ is presented in each book. Key characters and geography will be emphasized for a well-rounded understanding. The students will also learn a key verse for each book that best captures its essential truth. It will also be important for the students to understand an outline for each book and a picture will be used for each to speed the learning process and aid in retention. When completed, this course will complement the Seventh Grade Old Testament course in giving the students a solid Biblical foundation. Christian service each quarter will bring practical opportunities to apply the truth learned in serving others for Christ, in the community.

BIBLICAL FOUNDATIONS

Prerequisite: none

Fulfills one-year Bible credit requirement

Full year, 1 credit

This course is designed for new students to ensure a strong Biblical foundation. Topics include but are not limited to the following subjects: Introduction to the Bible, How to Know the Bible, God-His Character and Attributes, The Person of Jesus Christ, The Work of Christ, Salvation, The Person and Ministry of the Holy Spirit, Prayer and the Believer, The Church-Fellowship and Worship, Spiritual Gifts, Evangelism, and the Believer, Obedience, and God's Will and Guidance.

GRADE NINE: THEOLOGICAL FOUNDATIONS OF THE FAITH

Prerequisite: none

Required for 9th grade

Full year, 1 credit

This course is designed to expose students to an introductory view of all the major Theologies and Doctrines that are fundamental to the Christian faith. The intention is to familiarize students with the logical progressions and reasons of systematic theology while connecting these truths to their everyday faith and practices. The course will begin with a study of Genesis 1 and focusing on the theological elements of the Protoevangelium. Then we will systematically move through Bibliology, Soteriology, Hamartiology, Anthropology, Pneumatology, Christology, Theology Proper, Ecclesiology, Angelology/Demonology, and Eschatology. By the end of this course, students will be able to recognize the major theological themes of the bible and how they apply to their lives but, also recognize the major pitfalls of applying or believing in improper theologies.

GRADE TEN: APOLOGETICS

Prerequisite: none

Required for 10th grade

Full year, 1 credit

Apologetics is the practice of defending one's beliefs. Since the students studied the Theologies and Doctrines that are foundational to the Christian faith in the 9th grade, this course will explore how to defend those beliefs against modern criticisms. The student will be studying both negative apologetics (defending the faith against criticisms) and positive apologetics (offering arguments in favor of the faith). However, this course ensures that the student does not just learn how to defend the faith but, also, guide arguments back to the saving work of Jesus Christ, integrating evangelism into their apologetics. The year will begin by reading C.S. Lewis' *Mere Christianity* first to refamiliarize students with Christianity's fundamental doctrines but to also explore Lewis' Apologetic methods and arguments. After this we will explore more in-depth argumentation philosophies and reason; largely focusing on criticisms coming from atheism and agnosticism. Lastly, students will learn about criticisms from other world religions and how they can engage other belief systems with their apologetic method.

GRADE ELEVEN: CHRISTIAN ETHICS

Prerequisite: none

Required for 11th grade

First Semester, .5 credit

This course will serve as an introduction to philosophical (logical) and ethical thought (moral reasoning) from a uniquely Christian perspective. The question to be answered is the same asked of Jesus by Pontius Pilate in this scene from his life: "Jesus answered, "You say that I am a king. For this purpose, I was born and for this purpose I have come into the world—to bear witness to the truth. Everyone who is of the truth listens to my voice..." to which Pilate retorted, "What is truth?" This course will examine the distinctive aspects of Christian ethics in Scripture and challenge students to evaluate contemporary moral issues from God's point of view. It is also an introduction to the basics of ethical theory in juxtaposition to the biblical lens. Students will gain a universal knowledge of logical processing and the rules of noncontradiction and use them to articulate premises for their beliefs. Once the nature of objective truth is dealt with, students will then apply such logic to moral reasoning with topics such as abortion, sexuality, war and peace, euthanasia, and other selected topics all through a biblical lens. These topics can divide the body of Christ, so the instructor will act as the mediator of conversations and will ultimately emphasize the common ground and core unity that Christians should have in Christ Jesus. When exposed to God's identity as our transcendent moral standard as well as noticing his character of justice and mercy in Scripture, students will gain a sense of moral obligation to steward well what God has entrusted to them including their body, relationships, possessions, and planet, all in a lifestyle motivated by thankfulness and worship to God for what he has done to show us *the* way.

GRADE ELEVEN: HEBREW WISDOM LITERATURE

Prerequisite: none

Required for 11th grade

Second Semester, .5 credit

Students will engage in a study of Psalms, Proverbs, Job, and Ecclesiastes as ancient Hebrew wisdom literature. Students will gain an understanding of what God's values truly are, and ultimately how he defines 'the good life.' Students will come to an understanding of the major themes in each book, their ancient contexts, genre, interpretation and application of the texts. Students will see the connection between their previous studies with the Wisdom Literature as the theological foundation for ethics, faith formation, and the worshipful life as they prepare to move into the study of the Gospels with life implications of it in the 1st century, hundreds of years after its composition. They will study the problem of suffering and articulate the implications of this Wisdom from God. Students will draw connections from the Wisdom literature that have implications in the prayer and worship life of YHWH followers throughout the centuries from God's original revelation of his mind to the use of Psalms by Jesus, Paul, and other New Testament writers, to their use in the early church and throughout church history up to today. The goal is to develop the understanding that true wisdom only comes from God as the designer and architect of life, and to develop the skill of living wisely by God's standards to flourish in this life by the Spirit's leading.

GRADE TWELVE: JESUS & THE GOSPELS

Prerequisite: none

Required for 12th grade

First semester, .5 credit

This class will explore the Synoptic Gospels and John in detail, emphasizing historical context. Students will develop an understanding of genre, major themes, the 1st century Jewish context of the evangelists, and the life and teachings of Jesus as recorded in the Gospels. Students will be equipped to read and study the Gospels on their own and understand their importance as a primary text for the Christian faith and discipleship by learning the process of hermeneutics (right interpretation and application of the text). Students will be able to discern when people misquote Jesus or take him out of context, and will be equipped with the study tools, methods, and materials to dive deep into the message of Christ throughout a lifetime of reflection and devotion. Students will gain the ability to articulate the Gospel with Jesus's teachings on salvation, repentance, the Kingdom of God, and his role as Messiah. Students will also be guided in bridging the gap between Jesus 2000+ years ago and today's culture both secular and Christian. They will be shown that each person in Scripture was in many ways like each of us, with their own personal history, beliefs, culture, race, family, and societal context. Students will see the reinforcement of the importance of the Wisdom Literature by observing its use by Jesus. Students will encounter the transforming message of Jesus which collides with and renews our understanding of ourselves, creation, and our place in the world. Even for those who do not love ancient history, this course will unpack how 'context brings clarity' and students will be challenged to take their new skills and understanding to their daily lives by listening intently to and getting to know each person they meet as an individual with their own background and context in order to share what they know of Jesus.

GRADE TWELVE: ACTS & CAPSTONE

Prerequisite: none

Required for 12th

Second Semester, .5 credit

Immediately following our study of Jesus's life and message in the Gospels, students will study the book of Acts with the goal of providing the students with an understanding of how the early church began and how the Jesus movement first spread in the ancient world. The students will discover the power of the Holy Spirit through the leadership of Peter, Paul, and others in the early church. After encountering the Gospel and Holy Spirit in class, students will be challenged to articulate contemporary implications and application for personal and church life in a manner that is faithful to the text by way of a biblical hermeneutic. They will also study the missionary journeys of Paul, especially Acts 1:8, where Jesus says the Gospel will go to Jerusalem, Judea, Samaria, and the rest of the world. Ultimately, the course will give the students perspective on the diversity and rich history of their family, God's family, the Church. Immediately following our Acts study, students will participate in a research project and be coached through the writing process. This will be a 10-page research paper, including a proposal, annotated bibliography, rough draft, and final draft. They will participate in discussion groups, peer reviewing, and then give a presentation to the class on their topic. Students will articulate a strong biblical framework for to address their topic, including how Christians have historically addressed the issue and how they can respond today with modern resources.

CO-CURRICULAR PROGRAMS

SECONDARY ExPLORE WEEK

PCA's ExPlore week takes place during the spring of each school year and is designed to provide 9th – 12th grade students with key learning opportunities, whether it be educational, spiritual, vocational/career, or informational. The "block" or trip nature of the one week also allows for focused, in-depth study and deeper relationships within small groups of students and teachers.

The **Sophomores** who choose to travel to Washington, DC will learn about culture firsthand, visiting museums, viewing amazing architecture and absorbing current culture.

The **Seniors** who choose to travel to Costa Rica not only relax in the beauty of God's creation on their senior trip, but also become the hands and feet of Jesus as they share the Gospel through word and deed.

ENGLISH DEPARTMENT

As Christians, communication skills, both in written and oral form, are very important. This makes our English classes essential parts of an outstanding Christian education because of their practical and aesthetic qualities. Valuable reading-comprehension skills can transfer to effective Bible study with deeper understanding of God’s Word. The development of oral and writing skills also help our students to better articulate their faith to those who need to hear the “Good News”. Through the study of literature, our students can see the historical issues of life with its personal struggles and God’s dealings with His creation. Through the study of aesthetics, our students will enhance their appreciation of the creative qualities of our Heavenly Father and His creative gifts given to people throughout history.

GRADE SEVEN ENGLISH

Prerequisite: none

Required for 7th grade

Full year

This course introduces students to the power they hold with reading, writing, speaking, listening, viewing and representing skills. Students will explore each area of focus through a variety of units that enable them to not only discover these topics, but also apply and harness these skills as well. Using a combination of inquiry-based instruction, novel and genre studies, students will become readers and writers who critically and biblically examine the world around them. On a weekly basis, students will study vocabulary words, paying careful attention to their Greek and Latin roots, to build their academic language in both written and spoken texts. Seventh graders will also learn how to construct argumentative, memoir, and informative essays.

GRADE EIGHT ENGLISH

Prerequisite: none

Required for 8th grade

Full year

Throughout the course of the year, students will work to develop further the skills they learned in seventh grade. Students will dig deeper into the various facets of English Language Arts through inquiry-based instruction, novel and genre studies. On a weekly basis, students will continue to study vocabulary words, paying careful attention to their Greek and Latin roots, in order to build their academic language in both written and spoken texts. In addition to genre, literature, and vocabulary studies, students will also learn how to write and polish poems as well as informative and thesis essays.

GRADE EIGHT LIFE TOPICS

Prerequisite: none

Required, one semester (days of week split with PE, Computer)

This course is designed to prepare students from a Biblical core of Truth to deal with life in its’ various areas. Some of these areas include decision making, manners, stress management, and peer pressure. This course will teach students how to be highly responsible and effective in their academic pursuits through organization. This includes such areas as managing time well, taking good notes, and how to prepare for and excel in test taking.

ENGLISH FOUNDATIONS

Prerequisite: none

Required for 9th grade

Full year, 1 credit

Grammar, written communication skills, and literary analysis are integrated into this course to enhance the abilities of our students. The first semester of English 9 concentrates on Essay Composition, in studying the structure of several styles of academic essay, and on grammatical form and technique. First semester culminates in the writing of a research paper. The second semester entails five literature units: short story, poetry, Shakespearean drama, mythology/Greek drama and novel. Each lay a foundation for the further study of literature in the years to come. These literary forms are analyzed from a Christian worldview.

AMERICAN LITERATURE & COMPOSITION

Prerequisite: none

Required (10th or 11th or 12th)

Full year, 1 credit

This course provides a study of American literature and its corresponding history. The curriculum is designed for the college bound student with a focus on critical reading and writing skills. Students will study prominent American authors such as Emerson, Hemmingway, Irving, Thoreau, Fitzgerald, Frost, Dickinson, Whitman, and Poe, and learn how literary time period and history affects the ideas and styles of their works. Students will learn how to critically respond to various genres of literature including poetry, plays, novels, historical narratives, and short fiction. Additionally, the student's understanding of proper research, drafting, and composition skills will be furthered with a literary based research paper.

SPEECH

Prerequisite: none

Required (9th or 10th or 11th or 12th)

One semester, .5 credit

This course is designed to provide high school students the opportunity to build speaking skills for high school and college as well as in the workplace. To ensure progress and development of this skill, students will be presented with and tested on information from their text, as well as participate in a variety of speeches. The various objectives of this class include understanding the communication process, becoming aware of and understanding the roles of verbal and nonverbal communication, evaluating the strengths and weaknesses of others' speeches, and building self-esteem through successful communication experiences.

DEBATE

Prerequisite: Speech

Required (9th or 10th or 11th or 12th)

One semester, .5 credit

This course is designed to provide high school students the opportunity to build upon research and argumentation skills as students participate in a variety of debates, including Policy Debate, Lincoln Douglas Debate, Extemporaneous Speaking, Public Forum Debate, and Original Oratory. Students will be taught how to write an argumentative case, how to deliver a rebuttal, methods in cross-examination, and how to improve analytical thinking.

BASIC ENGLISH

Recommended for non-native speakers of English

Full year, 1 credit

This class is recommended for international or exchange students for whom English is not their native language and who are not yet fluent in writing or speaking English. This class will give the students more confidence and language skills for communicating in English in their other classes and social interactions. Students will study English grammar, writing skills, pronunciation, and conversation needed in order to succeed at PCA and beyond. All levels will study together one hour a day, while once a week individual instruction will address individual needs.

ENGLISH ELECTIVES

SURVEY OF BRITISH LITERATURE AND BRITISH NOVELS AND COMPOSITION

Prerequisite: none

Elective for 11th or 12th

Full year, 1 credit

The first semester of this course provides a study of British literature beginning with the Anglo-Saxon period through the Romantic period. Students learn collegiate response skills to various texts that have shaped the construction and foundation of Western literature and ideas. This course includes vocabulary, hands-on assignments, and a range of writing assignments. Second semester focuses on novels and composition, where students will hone their writing skills through the composition of narrative, informative, and explanatory writing.

SENIOR LANGUAGE AND COMPOSITION

Prerequisite: American Literature

Elective for 12th

Full year, 1 credit

This Language and Composition course aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods. Students in this course will complete the Senior Capstone project, in cooperation with our Bible Department.

ADVANCED PLACEMENT (AP) ENGLISH LANGUAGE AND COMPOSITION

Prerequisite: American Literature, see AP policy on pg. 9

Elective for 11th or 12th

Full year, 1 credit

This Language and Composition course aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods. This is a college level course, and students have the potential of earning college credit through the A.P. exam in May.

ADVANCED PLACEMENT (AP) ENGLISH LITERATURE & COMPOSITION

Prerequisite: American Literature, see AP policy on pg. 9

Elective for 12th

Full year, 1 credit

This course is designed for students who show exceptional ability in English. In this course, students will analyze and respond to a wide variety of English literature. Emphasis will be placed on finding multiple meanings of a work, responding in oral and written forms, considering secular and Christian worldviews as a part of their analysis, paying attention to literary movements and historical influences, and using proper vocabulary and terminology in response to a text. Students will spend a lot of time writing both inside and outside of the classroom and are expected to focus on strict adherence to a thesis statement, proper and effectual use of textual evidence, and developing a more complex writing style. This is a college level course, and students have the potential of earning college credit through the A.P. exam in May.

YEARBOOK/JOURNALISM

Prerequisite: none

Elective for 10th, 11th, 12th (does not count toward English credits)

Full year, 1 credit

Yearbook - Students will gain proficiency in layout, design, copywriting, advertising and photography. Work outside of class is expected in order to photograph events and conduct interviews. Students practice organizational and time management skills in meeting deadlines and are responsible for every aspect of yearbook production. Multi-year enrollment in this course is encouraged, and returning students have the opportunity for leadership roles.

Journalism - Assignments happen simultaneously with yearbook work. Students will study the basic principles of journalism and report on school events. They will learn investigative skills, responsible journalism practices, and Associated Press style writing. Student work is frequently featured on our school's social media outlets.

FINE & PERFORMING ARTS DEPARTMENT

Fine arts are essential in a well-rounded education. Our Fine Arts Education Program provides our students with the opportunity to explore Art, Music, and Drama. Through the act of creating, students are challenged to exercise their minds, solve problems, and to utilize their imaginations while formulating new ideas. It provides the individual with a sense of confidence through their accomplishments in their field. Participation in a fine arts program contributes to the development of the positive character qualities of teamwork, flexibility, appreciation and respect for others' ideas, and striving to glorify God through their efforts and talents.

MIDDLE SCHOOL ART

Prerequisite: none

7th Grade: Semester, Days of week split with PE and Keyboarding

8th Grade: Full Year Elective

Full year

Students will explore the elements of art and the principles of design using various media and techniques including drawing, painting, sculpture, printmaking, and ceramics. The history of art, various artists and styles will be introduced.

INTRODUCTION TO ART – Hello Art!

Prerequisite – None

Elective for 9th, 10th, 11th, 12th

One Semester, .5 credit (offered First and Second Semesters)

Students will learn the elements and principles of design along with basic methods of creating art. They will learn to solve an artistic problem and carry their idea through to a finished product. In addition, they will gain an appreciation for various artistic styles, as well as a working knowledge of a variety of two and three-dimensional media, including pencil, charcoal, pastels and paints.

ADVANCED DRAWING – Sketches and More

Prerequisite – Introduction to Art

Elective for 9th, 10th, 11th, 12th

One Semester – .5 credit (offered Second Semester)

Students will learn to solve complex artistic problems. They will develop their own style and learn to choose the proper subject matter and medium to express their ideas. Throughout the class they will gain an understanding of how to critique their own work along with another students' work. The essence of this course is for the student to develop their own artistic voice while increasing their knowledge of technique. A basic understanding of art history will also be acquired. Fundamental concepts of drawing with an emphasis on observational, descriptive and analytical drawing. Practice of drawing skills using common drawing media.

PORTFOLIO DEVELOPMENT - Getting into College

Prerequisite – Introduction to Art, Advanced Drawing – Sketches and More

Elective for 11th, 12th

Full Year – 1 credit

Students will develop a complete portfolio for entrance into college. They will continue to develop skill level, knowledge of art history, and technique in various media, but the essence of the course is to prepare students who intend to pursue art in college. Students will participate in a portfolio review - i.e. National Portfolio Day or equivalent.

PHOTOGRAPHY – More than Snapshots

Prerequisite – Introduction to Art

Elective for 9th, 10th, 11th, 12th

One Semester – .5 credit (offered First and Second Semesters)

Introduction to photography as a fine art medium, including the functions and controls of a digital camera; photography as a means of visual art expression, in monochrome and color; the basic aspects of image adjustment software; and, historical and contemporary approaches to both technical and artistic/conceptual practice.

CERAMICS – More than Mugs and Pots

Prerequisite – Introduction to Art

Elective for 9th, 10th, 11th, 12th

One Semester – .5 credit (offered Second Semester)

Ceramic processes including hand building, with terra cotta clay, low-fire glaze formulation, and kiln firing as a means of cultural and artistic expression. This course is for beginning students or students taking ceramics as an elective. Forming techniques including coil, slab and slip casting as well as approaches to glazing and firing are explored.

GRAPHIC DESIGN – Making a Mark

Prerequisite – Introduction to Art

Elective for 11th, 12th

One Semester – .5 credit (offered Second Semester)

Overview of form and communication analysis and manipulation. Investigation of theory, concept and visual tools central to developing visual communication systems. Students will design posters, magazine covers and explore package design, typography and the psychology of color.

PAINTING – A Color Explosion

Prerequisite – Introduction to Art

Elective for 11th, 12th

One Semester – .5 credit (offered First and Second Semesters)

Representational painting of landscape, figure, and still life imagery. Painting concepts, materials, and techniques. Students will work in oil, acrylic and watercolors.

CARTOONING / CHARACTER DESIGN – Personality and Panels

Prerequisite – Introduction to Art

Elective for 11th, 12th

One Semester – .5credit (offered First and Second Semesters)

Introduction to traditional and emerging visual narrative methods and comics production. Formal and conceptual strategies unique to the comics medium and critical consideration of artistic, instructional, and narrative capacities of comics. Character development, pen-and-ink, hand-illustration, and digital techniques for constructing storyboard layouts, graphic novels, and sequential art.

MIDDLE SCHOOL INSTRUMENTAL MUSIC – CONCERT BAND

Prerequisite: none

Elective for 7th and 8th

Full year

Students will develop their aural and musical skills through the study of different band music styles and become familiar with a variety of musical time periods. Each student will be encouraged to develop his or her skills through better technique in playing, sight-reading to speed up the process of learning new music, learning to blend with other instruments and to develop an appropriate performing stage presence. The discipline gained from personal practice and perfecting their talents has a great deal of carry-over to their adult lives. Many churches provide opportunities for individuals to enhance the worship of God through the vehicle of instrumental music all through their adult lives.

INSTRUMENTAL MUSIC – SYMPHONY BAND

Prerequisite: none

Elective for 9th, 10th, 11th, 12th

Full year, 1 credit

Students will continue to develop their aural and musical skills at the high school level, with an emphasis on achieving the highest possible technical ability for each individual student.

MUSIC THEORY

Co-requisite: Band/Choir or Director Approval

Elective for 9th, 10th, 11th, 12th

Full year, 1 credit

Music provides a way for students to express themselves artistically and glorify God, but music also enhances intelligence and creativity. Music Theory will develop students' visual and aural understanding of the structure of music. Students will study the language and symbols of music. Not only will students learn to read various musical elements, music as scales, chords, pitch notations, time signatures, rhythm, intervals, and triads, they will also learn to construct these elements themselves. The course also teaches students to understand basic forms in music compositions, including the skill of notation. As students learn these various aspects of music theory, they will undergo ear training to teach them to recognize these elements aurally as well. Completion of the course will provide a basic music theory background, which may enhance a student's overall performance skills.

JAZZ BAND

Prerequisite: none

Elective for 7th, 8th, 9th, 10th, 11th, 12th

Full year, 1 credit

The Jazz Band places an emphasis on performing a variety of styles of jazz music. These styles are blues, shuffle, ballad, funk, samba, and rock. Students will learn to improvise solos through the study of chord changes, theory, and audiation. Jazz Band students will also study the history of jazz and jazz musicians, learning about the icons who paved the way for jazz. Students will also learn about the process of transcription, in order to fully develop their ear training, and diversify their jazz vocabulary. Finally, the members of the jazz ensemble will perform at all concerts, and festivals.

VOCAL MUSIC – MIDDLE SCHOOL CHOIR

Prerequisite: none

Elective for 7th and 8th

Full year

The MS Choir at PCA is designed to encourage each student to use his/her voice to honor and glorify God. Each choir student will begin to explore basic singing skills and develop a solid foundation for vocal production through instruction in proper breathing, posture, diction, vowel formation, and sight-reading. They will also learn to develop and expand music reading, writing and performance skills through introduction to theory, composition, musical games, and various performance media (i.e. concerts, chapels, festivals). The importance of working together as a team is emphasized as students learn to blend as an ensemble and perform with proper stage presence. Students will learn to analyze and evaluate works of art and to describe them in their historical and cultural contexts. Lastly, students will learn to recognize and describe connections among the arts. By this means each student is given an opportunity to use his/her voice in order to "...sing and make melody in their hearts to the Lord." (Ephesians 5: 19)

VOCAL MUSIC – HIGH SCHOOL CHOIR

Prerequisite: none

Elective for 9th, 10th, 11th, 12th

Full year, 1 credit

The PCA High School Choir is an elective course open to all students desiring to use their voice to honor and glorify God. The choir provides students with an opportunity to sing, understand, and appreciate music from a wide variety of styles, cultures, and historical periods. Each choir student will explore and master basic singing skills and develop a solid foundation for vocal production through further developing vocal technique (i.e. proper breathing, posture, diction, vowel formation and tone quality). Emphasis is placed on increasing proficiency of each singer by developing skills in sight-reading and enhancing the level of musicianship through ensemble blend in rehearsal and performance. The High School choir will assist students in further expanding their music reading and writing skills through instruction in music theory, composition and music games which reinforce the concepts that are taught. Students will learn to evaluate and analyze music and to describe it in social, cultural and historical contexts. Choir members will describe and recognize the relationship between the arts and other disciplines. The choir performs at several concerts, chapels, community events or festivals. Each student will have the opportunity to exemplify Psalm 150:6 "Let everything that has breath praise the Lord!"

APPLIED VOICE

Prerequisite: 1 year of choir, audition, teacher approval

Elective for 10th, 11th, 12th

Full year, 1 credit

This course is designed for intermediate and advanced level students who wish to further their musical study with in-depth voice training. Students will work on improving their singing voices through the study of vocal pedagogy including breath control, tone production, and diction. Voice lessons, score study, demonstration, and a wide repertoire of music are elements in this course. The students may perform in concerts throughout the year. This course may culminate in a public recital performance.

MIDDLE SCHOOL - INTRO TO THEATRE

Elective for 7th, 8th

Full Year

In this class students will learn the basics of improv, pantomime, voice, characterization, acting, and more. Students will watch, read, and experience theatre in order to develop a critical eye for quality. At the end of the year, the students will perform in their own production. There will be two curriculums for this class that will switch every other year so that students may repeat the course if they desire.

THEATRE I

Elective for 9th and 10th grade

Full Year, 1 Credit

In this class students will review the basics of improv, pantomime, voice, characterization, acting, and more. They will also learn the basics of technical theatre such as costuming, lighting, sound, and set design. In addition, students will focus on scene work, auditions, and theatrical analysis of comedic and dramatic works. At the end of the year, students will perform in their own production.

THEATRE II

Prerequisite: Theatre I

Elective for 11th and 12th grade

Full Year, 1 credit

In this class students will spend little time reviewing the basics and instead perform in two shows each year. The first semester would be spent in preparation for a musical play performance including singing and choreography. In addition to performing, students will assume creative roles such as director, producer, or designer. The second semester would be spent in preparation for a straight play performance, and the students would once again assume creative roles such as director, producer, or designer. The plays chosen will vary from year to year, which means students may take this course more than once.

DRAMATIC LITERATURE (offered every other year, offered again in the 2021-22 school year)

Prerequisite: None

Elective for 11th, 12th

Full Year, 1 Credit

Students will grow in their knowledge of dramatic literature as we study the great playwrights across the lifespan of theatre, starting with ancient Greece and ending with plays written today. Students will improve their ability to articulate their personal experiences in connection to the literature discussed. This course will provide students with reading and creative writing strategies. They will use analytical tools, empathetic observations, and research to deeply understand how the historical context or events in the playwright's life affected his or her writing and how these affect performances. At the end of the year, students will write their own plays.

FILM STUDIES (offered every other year, offered again in the 2022-23 school year)

Prerequisites: None

Elective for 11th, 12th

Full Year, 1 Credit

In this course, students will watch various film genres to critique and analyze camera work, lighting and color, composition, editing, sound design, film acting, and cinematography. Throughout the year students will apply what they learn by creating short films of their own and assisting the school in creating promotional videos for athletics, fine arts, and more. This is a hands-on course that provides the basics of filmmaking.

CHOREOGRAPHY (offered every other year, offered again in the 2021-22 school year)

Elective for 9th, 10th, 11th, 12th

Full Year, 1 credit

Students will gain experiential knowledge in the basics of choreography. Students will learn warm-ups, choreography, and genre as they apply to dance history. Students will study famous choreographers and styles, synthesize performances, and exhibit mastery of style in weekly rehearsals and monthly in-class performances.

MATHEMATICS DEPARTMENT

As Scripture teaches in Isaiah 28:10 ESV, “For it is precept upon precept, precept upon precept, line upon line, line upon line, here a little, there a little.” The Mathematics Department provides a complete and comprehensive program, training students to advance in proficiency by providing opportunities for success at all levels of ability. Our goal is for every student to achieve the greatest possible performance in math, recognize their God-given talents through this process, and develop an appreciation for learning and using mathematics. All math courses emphasize problem-solving, mathematical concepts and applications, and critical thinking.

HIGH SCHOOL MATH TRACKS (Students can take Geometry with Algebra 1 or Algebra 2 with approval)

Algebra Foundations -> Algebra 1 -> Geometry -> Algebra 2

Algebra 1 -> Geometry -> Algebra 2 -> Pre-calculus or Financial Algebra or Statistics

Algebra 1 -> Geometry -> Algebra 2 -> Pre-calculus -> AP Calculus or Financial Algebra or Statistics

SAXON MATH COURSE 1 – Middle School

Prerequisite: none

7th

Full year

This course strengthens math foundational concepts and builds skill levels.

SAXON MATH COURSE 2 – Middle School

Prerequisite: Saxon Math Course 1

7th or 8th

Full year

This course provides detailed development of math skills and concepts as well as in-depth algebraic reasoning and evaluation.

SAXON MATH COURSE 3 – Middle School

Prerequisite: Saxon Math Course 2

7th or 8th

Full year

This course provides concentrated development of math skills and concepts as well as abstract reasoning and an extensive study of algebraic concepts with application.

ALGEBRA FOUNDATIONS

Prerequisite: none

9th

Full year, 1 credit

This course provides concentrated development of math skills and concepts as well as abstract reasoning and an extensive study of algebraic concepts with application.

ALGEBRA 1

Prerequisite: Saxon Math Course 3 or Algebra Foundations

Required – 9th or 10th, Teacher Recommendation – 8th

Full year, 1 credit

This course meets State of Michigan graduation requirements and meets and exceeds the Michigan Curriculum Standards. This course covers linear and quadratic functions as well as lessons on probability, data analysis, and geometry. TI-83 or TI-84 Graphing Calculator is required.

ALGEBRA 2

Prerequisite: Algebra 1

Required

Full year, 1 credit

This course meets State of Michigan graduation requirements and meets and exceeds the Michigan Curriculum Standards. This course studies linear, quadratic, exponential, logarithmic, radical & rational functions. This course also covers lessons on probability, geometry and trigonometry. TI-83 or TI-84 Graphing Calculator is required.

GEOMETRY

Prerequisite: none

Required

Full year, 1 credit

This course meets State of Michigan graduation requirements. In this course inductive and deductive reasoning will be used to study triangles, quadrilaterals, polygons, circles, perpendicular and parallel lines. Students will develop the ability to use abstract thought to organize and write direct and indirect proofs. This course will conclude with a study of area, volume, and distance.

MATHEMATICS ELECTIVES

STATISTICS

Prerequisite: Algebra 2

One semester, .5 credit

In this course students will analyze and interpret data using frequency distributions, graphs, normal distribution curves, confidence intervals, and regression equations. Students will perform hypothesis, correlation, and chi tests. An in-depth study of probability will complete the course.

PERSONAL FINANCE

One semester, .5 credit

This course helps students be good stewards of the Lord's money. The first half of the semester will use Dave Ramsey's *Foundations in Personal Finance*. The second half will look in depth at topics such as checking & savings accounts, buying a home, buying a car, investments and retirement.

BUSINESS FINANCE

One semester, .5 credit

This course will look at finance from a business perspective. Students will investigate decisions that a business owner would need to make on a regular basis. Some topics covered include paying employees, purchasing & inventory, sales, marketing & accounting.

ACCOUNTING A (online Michigan Virtual)

Prerequisite: none

One semester, .5 credit

This is a skill-level course that is of value to all students, whether exploring a career in business or for personal financial needs. It is an essential course for students who are pursuing a strong background in business, marketing and management. This course covers the complete accounting cycle for a proprietorship, along with journalizing and posting transactions.

ACCOUNTING B (online Michigan Virtual)

Prerequisite: Accounting A

One semester, .5 credit

This course is a continuation of Accounting A. In Accounting B, students will expand their knowledge of accounting procedures by working within the structure of a corporation. Competency will be exhibited in completing payroll taxes and reports, special journals and other financial statements.

PRE-CALCULUS

Prerequisite: Algebra 2 and Geometry

Full year, 1 credit

In this course students examine graphs, limits, and derivatives of linear, quadratic, logarithmic, exponential, and trigonometric functions and the effects of parameter changes on the functions. This course concludes with a study of trigonometric identities and matrices.

ADVANCED PLACEMENT (AP) CALCULUS AB

Prerequisite: Pre-Calculus, see AP policy on pg. 9

Full year, 1 credit

This course follows the Advanced Placement syllabus in preparation for students to take the AP test in May. Course study will include properties of functions, limits, differential calculus, and integral calculus. Use of symbolic differentiation and integration utilities is also included.

PHYSICAL EDUCATION DEPARTMENT

The total education of a person involves their development spiritually, mentally, socially and physically. Therefore, physical education is a very integral part of the total curriculum in the educational process. Physical education enhances the overall health of young people by improving their cardiovascular endurance, muscular strength, flexibility, proper weight regulation, skeletal development, posture and coordination. The discipline learned in a quality physical education program carries over to a physically fit adult with reduced risks for heart disease, diabetes and cancer. Students are taught to respect their bodies and to show good stewardship for the “temple of the Holy Spirit” (I Corinthians 6:19) through proper training. God has made our bodies in a marvelous way (Psalm 139:14) and our students will learn how to properly care for those bodies in order to function more efficiently in their lives to their best potential for God’s glory and the rest of humanity. God also gives many physical talents that must be developed and used wisely as much as any musical, artistic, intellectual and spiritual gift should be developed and used wisely as being accountable back to God. Physical education helps increase our students’ mental alertness, academic performance and enthusiasm for learning. It develops our students in the areas of self-esteem, independence, personal responsibility, assertiveness, emotional control, mental toughness and effectively handling pressure. Physical education also teaches personal integrity, cooperation, persistence and good sportsmanship. It is preparation for life-long success.

GRADE SEVEN PHYSICAL EDUCATION

Prerequisite: none

Required for 7th grade

Full year (days of week split with Art/Keyboarding)

This course is designed to develop physical skills while improving overall fitness. It will acquaint our students with the basic skills and rules of many team, individual and life-time sports, as well as present a strong Christian perspective on sportsmanship.

GRADE EIGHT PHYSICAL EDUCATION

Prerequisite: none

Required for 8th grade

Full year (days of week split with Life Topics/Computers)

This course is designed to develop physical skills while improving overall fitness. It will acquaint our students with the basic skills and rules of many team, individual and life-time sports, as well as present a strong Christian perspective on sportsmanship.

PHYSICAL EDUCATION

Prerequisite: none

Required (9th or 10th or 11th or 12th)

One semester, .5 credit

This course is designed to develop physical skills while improving overall fitness. It will acquaint our students with the basic skills and rules of many team, individual and life-time sports, as well as present a strong Christian perspective on sportsmanship.

HEALTH

Prerequisite: none

Required (9th or 10th or 11th or 12th)

One semester, .5 credit

We have a responsibility to our Creator to make decisions that foster a high quality of life in service to Him. This one semester course is designed to help students recognize the value of attaining and maintaining good health. Topics covered in this class include the benefits and rewards of good health (physical, mental and emotional), good nutrition, proper exercise, problems and diseases that are caused by poor or neglected health, and dangers associated with the use of alcohol, tobacco and illegal drugs.

PHYSICAL EDUCATION ELECTIVES

WEIGHTLIFTING / INDOOR COURT SPORTS DEVELOPMENT

Prerequisite: One semester of Physical Education

Elective for 10th, 11th and 12th

Full Year, 1 credit

Monday, Wednesday and Friday, students will weight-train and condition in our excellent facility. Safety and proper technique, in resistance training, will be taught. Students will learn and practice specific exercises for every major muscle group. Students will also participate in a variety of exercises to enhance their general conditioning and athletic skills. On Tuesday and Thursday, students will cover a variety of “net games”- volleyball, badminton, pickle ball, ping pong, and other games involving a net. Students will participate through playing and training for the games. The background and history of each activity will also be presented. If a students’ schedule allows, this course may be taken more than once.

SCIENCE DEPARTMENT

God, as the Creator and Sustainer of the universe, is the foundation of all our science classes. The truth that is taught at PCA, in grades K-12, is anchored in the Scriptural Truth that our Sovereign God designed everything. Our students are intellectually challenged to better understand their world through scientific investigation. They will develop inquisitive minds to understand the truth of God's creation. Hands-on experimentation will provide our students with exposure to all areas of science: life, earth, physical and engineering. As our students understand the complexity and beauty of our universe, the more they will appreciate the greatness of God.

GRADE SEVEN INTEGRATED SCIENCE

Prerequisite: none

Required for 7th grade

Full year

This course provides an integrated approach of studying science. Students will discover how the science disciplines are interrelated while introducing basic concepts and key ideas. Topics include: the atmosphere; weather factors and patterns; climate; exploring space, the solar system; stars, galaxies, and the universe; waves; sound; electromagnetic spectrum; light; magnetism; electricity and electronics. This course also provides an interdisciplinary and applied approach to science with several problem solving and reasoning activities involving STEM (science, technology, engineering, and math). All topics will constantly compare the worldview to the truth of God's word.

GRADE EIGHT PHYSICAL SCIENCE

Prerequisite: none

Required for 8th grade

Full year

This course analyzes the nature of energy and nonliving matter. Topics include defining science and the work of scientists; technology and engineering; motion; forces; work and machines; energy and heat; matter; periodic table; exploring materials; atoms and bonding; chemical reactions; acids, bases and solutions and carbon chemistry. The program weaves together current, real-world content with hands-on science inquiry. The integrated STEM activities provide opportunities for students to think deeply and problem solve so that they have the chance to become innovators, educators, researchers, and leaders who can solve the most pressing challenges of our world. All topics will constantly compare the worldview to the truth of God's word.

BIOLOGY

Prerequisite: none

Required

Full year, 1 credit

This course is designed to meet the national and state standards for biological education. In this course, students will consider the diversity and complexity found in an array of organisms that God has designed. Topics covered are: the origin of life (creation vs. evolution), biochemistry, cell structures, photosynthesis, respiration, cell division, and genetics. We will also study taxonomy and explore each kingdom. This study will involve a variety of laboratory experiences designed to include scientific inquiry, increase science processing skills and will include dissecting.

SCIENCE ELECTIVES

ANATOMY & PHYSIOLOGY

Prerequisite: Biology

Elective for 10th, 11th or 12th

Full year, 1 credit

This course focuses on how the structures of the human body and how this relates to its overall functions. The human body reveals the workmanship of the divine Creator. Study will be done systematically concentrating on the following: integumentary system, skeletal system, muscular system, nervous system, cardiovascular system, respiratory system, digestive system, urinary system, and reproductive system. The course work emphasizes a hands-on approach to learning about the human body including the study of models, mammalian dissections, and lab work on physiological responses to stimuli. This course is recommended for students' interest in the health sciences: nursing, medicine, pharmacology, and medical technology, as well as any other interested student.

GEOPHYSICAL SCIENCE

Prerequisite: none

Elective for 10th, 11th or 12th

Full year, 1 credit

This course is the study of three of the Earth's four spheres (geosphere, atmosphere and hydrosphere) and the way they exchange matter and energy to create different processes and landforms. This course covers a wide variety of science areas such as geology, the rock cycle, plate tectonics, the atmosphere, meteorology, and oceanography. Students will develop and strengthen many skills such as, reading: charts, graphs, and tables, collaboration, critical thinking, and problem solving. The application of these skills is exercised through the construction of models, projects, and lab write-ups. The skills acquired prepares students to be real world scientific thinkers that use fact-based reasoning to make sound decisions. Both the Biblical and secular paradigms will be compared and contrasted based on the Truth of God's Word so that students can take ownership of what they believe and why.

CHEMISTRY

Prerequisite: Algebra 1 (75% or higher) and Biology

Elective for 10th, 11th or 12th

Full year, 1 credit

Chemistry can be broadly defined as the study of matter, its properties and how it changes, and reacts with other elements of matter, both the familiar and unfamiliar material that makes up our world. Because of this, chemistry is an intimate part of everyone's life. In fact, life itself is an applied lesson in chemistry. In today's technological world, everyone, not just scientists and science teachers must know about scientific concepts and their contribution to society. Our chemistry course recognizes the impact of chemistry and is designed to help students understand the theory behind some of the important issues in today's society, daily living, health and nutrition. In this class we will develop the scientific problem-solving skills, and application of math skills which are used in future science classes. We will honor God by appreciating and seeking to understand the elegance of his creation.

PHYSICS

Prerequisite: Algebra 1, Biology and Chemistry

Elective for 11th and 12th

Full year, 1 credit

Along with the Bible, Physics is literally the owner's manual/rule book for the planet. Students will develop an understanding of the concepts that underlie many of the phenomena observed in everyday life and learn to apply mathematical models to them. Hands-on activities will be used to illustrate concepts and allow for inquiry-based learning. This course is an absolute must for anyone planning to major in engineering and the pure science fields of chemistry or biology. Additionally, students planning to pursue the applied fields of physical/occupational therapy are encouraged to take this class.

Quantitative skills learned in second year algebra/trigonometry and chemistry will be employed in the problem-solving concepts covered. General areas of study will include concepts of mechanics, motion, astronomy, heat, light, sound, magnetism, and electricity.

ENVIRONMENTAL SCIENCE

Prerequisite: Biology

Elective for 10th, 11th and 12th

One Semester, .5 credit (offered First Semester)

Environmental science focuses on natural resources, conservation, environmental monitoring, remediation and public health. Special attention will be paid to the ecology of our local environment and the interactions of living things within our ecosystem. Students will examine the biological, physical and chemical processes at work in the environment. The impact of technology and engineering will be explored as we explore the sustainability of the environment and our role as God's stewards for the planet.

FORENSIC SCIENCE

Prerequisite: Biology

Elective for 10th, 11th and 12th

One Semester, .5 credit (offered Second Semester)

Forensic Science is a multidisciplinary science course. The course bridges science-based inquiry and the criminal justice system. Forensic Science integrates core concepts from the primary area of Biology and will touch upon Chemistry and Physics building upon these themes. This course utilizes lecture, laboratory activities and experiments, scientific literature/case study analysis, and will allow students to apply the scientific method to develop their writing, problem solving and critical thinking skills in a biological context. Inquiry based laboratory investigations and analysis play a central role in the course. Topics covered will include: crime scene analysis, physical/chemical analysis of various evidence types, advanced microscopy, chromatography, hair/fiber/glass analysis, fingerprint comparison, comparative analysis, document analysis, firearms/ballistics, drugs/toxicology, entomology, anthropology, blood (serology) and DNA analysis utilizing the polymerase chain reaction (PCR).

ADVANCED PLACEMENT (AP) BIOLOGY

Prerequisite: Chemistry and Biology, see AP Policy on pg. 9

Elective for 11th and 12th

Full year, 1 credit, Offered every other year vs AP Chemistry, (next in 2022-23 school year)

This course is designed to be the equivalent of a college introductory biology course and to prepare the student for the advanced placement exam given in May. This course is an in-depth, content intensive study of biological principles which include laboratory investigations dealing with cell biology, genetics, DNA technology, enzyme catalysis, photosynthetic rate, ecology, evolution and physiology. AP Biology students will occasionally be required to meet before school to begin certain lab exercises and occasionally after school for data collection. *All students enrolled in this course are required to take the Advanced Placement Exam in May.*

ADVANCED PLACEMENT (AP) CHEMISTRY

Prerequisite: Chemistry and Biology, see AP Policy on pg. 9

Elective for 11th and 12th

Full year, 1 credit, Offered every other year vs AP Biology (next in 2021-22 school year)

This advanced chemistry course builds on the foundations of Chemistry I and allows students to potentially gain college credit upon taking the AP Chemistry exam. The objectives pursued in this class parallel those of a typical first year college class and include: chemical reactions, net ionic equations, oxidation and reduction, chemical equilibrium and kinetics, stoichiometry, aqueous equilibrium and gas laws. Students will also be introduced to organic chemistry and biochemistry. The course focuses heavily on the development of advanced laboratory skills. *All students enrolled in this course are required to take the Advanced Placement Exam in May.*

SOCIAL STUDIES DEPARTMENT

Ours is a great nation which God has richly blessed, but we struggle with political, social and economic complexities which affect our lives, nation, and global community in countless ways. Students will be able to identify the roots of these complexities, explore their ramifications and understand God's calling on our lives to be a light to this world. In this process, students will develop critical thinking skills to examine and explore past and present societies. They will gain an understanding of political, social and economic factors which guide decision making and the results of these decisions, both positive and negative. Developing an appreciation for what makes societies unique in this vast world and celebrating how God brings us all together is significant for students to appreciate in our ever-expanding global society. Students will explore their dual role as citizens of the Kingdom and citizens here in our society. Most importantly, students will develop a foundational understanding of God's sovereignty over the past, present, and future. II Chronicles 20:6b "You rule over all the kingdoms of the nations. In your hand are power and might, so that none is able to withstand you."

GRADE SEVEN WORLD HISTORY

Prerequisite: none

Required for 7th grade

Full year

The seventh-grade social studies curriculum focuses on early world history. Students begin their exploration into world history with a focus on historical and geographical thinking. Students learn about the world by studying specific geographic regions. Students will learn the history of the region as well as their current economy, present government and what life is like in that region. The course objective is to help students expand their view of human history and begin to see the story of the United States in a more global context and more importantly, God's redemptive plan at work. The course concludes with students analyzing global patterns of continuity and change over time and using evidence to construct historical arguments about the past.

GRADE EIGHT AMERICAN HISTORY

Prerequisite: none

Required for 8th grade

Full year

God has blessed our country with a wonderful heritage. We were privileged to be born here and we accept the responsibility of protecting that heritage through knowledge and political action so that others may also enjoy this great land. This initial study of U.S. History focuses on our beginnings as a young nation and continues to the end of the American Civil War. Emphasis is placed on understanding the values and principles our nation was founded upon and analyzing how our principles have impacted our national actions.

WORLD HISTORY

Prerequisite: none

Required (9th or 10th)

Full year, 1 credit

This class begins with establishing for our students an understanding of the sovereign hand of God over the past, present and future events. Job 12:22-24 "He reveals the deep things of darkness and brings utter darkness into the light. He makes nations great, and destroys them; he enlarges nations, and disperses them." Romans chapter thirteen says that all governing authorities were and are established by God. Our course begins with Creation, the study of ancient civilizations including Mesopotamia, Egypt and Israel. Then, it turns to the study of the classical world of Greece and Rome. The modern era emphasizes Western Civilization and the rise of the Enlightenment and rise of Nation-States. Students will then study WWI and WWII including the Russian Revolution ending the course with a discussion of the Cold War and its effects on the post war world.

UNITED STATES HISTORY

Prerequisite: none

Required for 10th, 11th or 12th (students must take US History or AP US History)

Full year, 1 credit

Beginning with the American Civil War, the focus of this course will progress through the 20th Century America as the United States emerges as a world power as evidenced by imperialism and World War I. Students will examine the causes and outcomes of the Great Depression and the United States involvement in World War II. Students will then explore the Cold War and the police actions of Korea and Vietnam. The role of the country is discussed with the collapse of the Soviet Union and the role as “world policeman”. The course will end with the beginning of the 21st century and the tragic events of September 11th. In all, this course emphasizes the struggle and accomplishments of all Americans and how the past shapes their lives today. Our hope is for students to develop a strong sense of appreciation and pride in America’s great history and of a land which God has so richly blessed.

ADVANCED PLACEMENT (AP) UNITED STATES HISTORY

Prerequisite: see AP policy on pg. 9

Required for 10th, 11th or 12th (students must take US History or AP US History)

Full year, 1 credit

The goals of this course are very similar to the general United States History course. Yet unlike the general course, there is an emphasis placed on preparing students for an end-of-the-year AP exam. This exam enables students to earn college credits as well as high school credit. Students learn how to write effective and persuasive essays. The course further develops students critically thinking skills and also to learn how to analyze college-level materials. The course covers United States history from the Columbian Age to the early 21st century. Unlike the general course that helps students learn the details of history, this course helps students create an overall picture of our nation’s past and its relevance today.

ADVANCED PLACEMENT (AP) US GOVERNMENT

Prerequisite: see AP policy on pg. 9

Required for 11th or 12th (students must take US Government or AP US Government)

Full year, 1 credit

The Advanced Placement course in United States Government and Politics will give students a college entry level class experience while developing an analytical perspective on government and politics. This course includes the study of general concepts through reading, essay writing, and document analysis. It requires students to develop a familiarity with the various institutions, groups, beliefs, ideas, experiences, and court cases that have shaped the U.S. political system. Students will become acquainted with various perspectives and explanations for how our system has been developed, who governs and to what ends.

US GOVERNMENT

Prerequisite: none

Required for 10th, 11th or 12th (students must take US Government or AP US Government)

One Semester, .5 credit

This course is aimed at preparing our students to be active citizens. First, they are taught different political theories and systems with the understanding of why our nation chose a Republican form of government. They will study our Constitution to understand the brilliance of separation of powers with checks and balances. They will explore civil rights and the functions of the three branches of government (legislative, executive and judicial). Furthermore, they will examine the history and function of political parties, patterns of voting behavior, special interest groups and elections. Local and state issues are also covered as well as their role in the political process.

ECONOMICS

Prerequisite: none

Required for 11th or 12th

One semester, .5 credit

This course is designed to establish a broad economic foundation for students. The focus of this course is to introduce micro, macro, consumer, and personal economic terms and topics to enhance students’ preparedness for a responsible future and for greater understanding of democratic citizenship. This class will improve student decision-making as a consumer and a voter.

SOCIAL STUDIES ELECTIVES

US CRIMINAL LAW

Prerequisite: none

Elective for 10th, 11th and 12th

One semester, .5 credit (offered First Semester)

This course is designed for the students who have an interest in the law and the legal system. Throughout the semester, students will explore the US criminal system including juvenile justice. The study of the legal system gives our students the understanding of how our system works. Along with traditional course work, students will also participate in mock trials, law applications and classroom discussions. Current issues are discussed, and Biblical values are used as a normative in making judgments.

US CIVIL LAW

Prerequisite: none

Elective for 10th, 11th and 12th

One semester, .5 credit (offered Second Semester)

This course is designed for the students who have an interest in the law and the legal system. Throughout the semester students will explore the US civil court system. The study of the legal system gives our students the understanding of how our system works. Along with traditional course work, students will also participate in mock trials and arbitrations, law applications and classroom discussions. Current issues are discussed, and Biblical values are used as a normative in making judgments.

PSYCHOLOGY

Prerequisite: none

Elective for 10th, 11th and 12th

One semester, .5 credit (offered First Semester)

Our study of Psychology will lead to a comprehensive overview of this subject with special emphasis on personality theories, developmental psychology and abnormal psychology. Integrated into these studies will be a variety of other topics such as perception, creativity, motivation, stress and learning theories. As we better understand ourselves, we will better understand spiritual warfare, our parents, siblings, teachers, friends and the various people that our Lord brings across our paths.

SOCIOLOGY

Prerequisite: none

Elective for 10th, 11th and 12th

One semester, .5 credit (offered Second Semester)

Sociology is the study of human society that includes both the social actions and the organizational structures of society. In a culture that is using “victimization” as an excuse for any accountability for the responsibility of actions, the Biblical teaching is highly stressed. Students will be introduced to basic sociological topics that may include problems of social structure, family, race, and others.

ADVANCED PLACEMENT (AP) PSYCHOLOGY

Prerequisite: see AP Policy on pg. 9

Elective for 10th, 11th and 12th

Full year, 1 credit

This course will provide a rigorous two semester presentation of Psychology. The course will offer a college level presentation in the comfort of a high school setting. It will introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students will be exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. In addition, they will learn about the ethics and methods psychologists use in their science and practice. In keeping with the purposes, principles, and guiding ideas of our school, an integration of Christian principles and perspectives will be added to course materials and lectures to reflect the school’s desires to expose our students to the rigors of a college course, while using as our guide God’s holy word.

EARLY US MILITARY HISTORY

Prerequisite: none

Elective for 10th, 11th and 12th

One semester, .5 credit (offered First Semester)

This course will illustrate the sacrifice of our nation's citizens as well as the protection of our almighty God. It will examine the changes in American military history in terms of strategy, tactics, technology, and those who fought in each war. The focus will be on ground forces, but as time permits each of the other branches will be given their own focus and time. The course uses a college-level textbook for the daily reading assignments. Lecture notes, hand-outs, videos, and guest speakers will round-out an information-packed course. Study guides will be given at the beginning of each unit to be completed by the student and help prepare them for each test. This first part of the course will briefly discuss the men and women that serve in the military and the general order of troop formations. We will also learn about the difference between strategies and tactics and how they change over time. The scope of this course will focus on the formation of colonial militias and cover conflicts to the Civil War.

MODERN US MILITARY HISTORY

Prerequisite: none

Elective for 10th, 11th and 12th

One semester, .5 credit (offered Second Semester)

This course will illustrate the sacrifice of our nation's citizens as well as the protection of our almighty God. It will examine the changes in American military history in terms of strategy, tactics, technology, and those who fought in each war. The focus will be on ground forces, but as time permits each of the other branches will be given their own focus and time. The course uses a college-level textbook for the daily reading assignments. Lecture notes, hand-outs, videos, and guest speakers will round-out an information-packed course. Study guides will be given at the beginning of each unit to be completed by the student and help prepare them for each test. This first part of the course will briefly discuss the men and women that serve in the military and the general order of troop formations. We will also learn about the difference between strategies and tactics and how they change over time. The scope of this course will range from the Spanish-American War to the current conflicts in Iraq and Afghanistan.

TECHNOLOGY & BUSINESS DEPARTMENT

Since technology is a permanent part of our life and is advancing at an incredible rate, it is important for our students to keep pace and be computer literate in the 21st Century. The critical factor is to maintain a high level of moral and ethical use of this technology with principals from Scripture. The classes offered in this department will give our students a working knowledge of the current hardware and software. Opportunity is given for practical application in real life situations and to discover if students may have some God-given talent in this area, equipping them for a lifetime of learning, leadership, and service.

GRADE SEVEN KEYBOARDING

Prerequisite: none

Required for 7th grade

One semester (days of week split with Art and P.E.)

Following the keyboarding standards set by NBEA (National Business Education Association), this is a course in which Middle School students are introduced to the proper keystrokes for keyboarding. Also, through a computer program, students taking this course will gain proficiency in alphabetic keyboarding technique-letter key operation and skills. The same will be true in numeric keyboarding technique-operation and skills. They will also learn basic formatting and document processing.

GRADE EIGHT COMPUTERS

Prerequisite: none

Required for 8th grade

One semester (days of week split with Life Topics and P.E.)

With the continuation of proper keystrokes, students are introduced to using Microsoft Office 2016. Students will learn word processing (Word) by researching and creating an MLA style report including the outline and works cited page. They will also create a Power Point project using animation and sound along with other advanced features.

BUSINESS TECHNOLOGY I

Prerequisite: none

Required for 9th or 10th or 11th or 12th

One semester, .5 credit (offered First Semester)

Students will be placed in a real-world simulation that teaches computer application skills through entrepreneurship concepts. They will complete projects, manage data and plan and combine the use of Word, Excel, PowerPoint, and Publisher to develop the worksheets and documents used in a business. Along with this, they will learn how to conduct internet research, accounting, and financing, making spreadsheets, maintaining a database and developing their presentation and communication skills.

BUSINESS TECHNOLOGY II

Prerequisite: none

Required for 9th or 10th or 11th or 12th

Semester, .5 credit (offered Second Semester)

Designed for today's digital natives, this class will teach students how to use technology responsibly. Digital citizenship will be the main focus while guiding students to conduct effective online research, how to defend themselves against identity theft, use social media and e-commerce sites safely, use proper etiquette, and how to manage their digital trail. The use of AI in today's world will be examined and discussed along with the respect and responsibility of using it. Students will learn how to design their own website, create a digital portfolio, make a podcast and build a blog.

TECHNOLOGY & BUSINESS ELECTIVES

MIDDLE SCHOOL CODING 1

Prerequisite: none

Elective for 7th or 8th

Full year

Ignite your passion for learning to code using Minecraft: Education Edition. This is a game-based learning platform that offers an engaging way to code using block-based coding and Python. You will also be introduced to 3D printing using a 3D pen and printer. Tinkercad and Fusion 360 will be taught as a way to 3D print. Requirements: Laptop with i5 or better processor, 7th generation or newer, Windows 10 Operating System. A Chromebook or iPad is not advised.

MIDDLE SCHOOL CODING 2

Prerequisite: MS Coding 1

Elective for 8th

Full year

Students will continue learning how to use Python. Requirements: Laptop with i5 or better processor, 7th generation or newer, Windows 10 Operating System. A Chromebook or iPad is not advised.

BUSINESS & PROFESSIONAL COMMUNICATIONS

Prerequisite: none

Elective for 11th or 12th

One semester, .5 credit (offered First Semester)

Students will explore vital topics such as employment opportunities, interview skills, presentation strategies, and much more. Not only will students learn about opportunities in training, education, and certifications for employment, but they will also learn and demonstrate professional standards and personal qualities needed to be employable in today's job market. From soft skills, interpersonal communication, and leadership traits, to writing business documents and delivering effective presentations, students will receive a thorough understanding of how to effectively communicate in a professional setting.

ENTREPRENEURSHIP: STARTING YOUR BUSINESS

Prerequisite: Business Technology 1

Elective for 11th or 12th

One semester, .5 credit (offered Second Semester)

Learn what it takes to own your own business and gain the confidence needed to be your very own boss. Students use their computer application skills to create a professional, comprehensive business plan and supporting marketing materials that promote their business. This course will introduce marketing and advertising by using digital media, maintain company websites, and create business blogs. An individualized business plan will be created that is endorsed by the NBEA (National Business Education Association) and combine the use of Word, Excel, PowerPoint and Publisher to develop the worksheets and documents necessary for a business.

ROBOTICS

Prerequisites: HS Robotics Team Member

Elective for 9th – 11th

Full year, 1 credit

This class is for high school students on the robotics team who want to expand their knowledge in selected areas and earn high school credit. Following the national learning standards, this course will include learning projects during robotics meetings to increase student's knowledge in their area of choice: Computer Aided Design (CAD), Machining, Programming, Engineering and Electronics. This class will use badges to map learning trajectories. Levels of badges can be linked with various levels of student accomplishments and aligned with standards or competencies and are approved through the Michigan Department of Education. Requirements: Laptop with i5 or better processor, 7th generation or newer, Windows 10 Operating System. A Chromebook or iPad is not advised.

WORLD LANGUAGES DEPARTMENT

At PCA, instruction in world language has at its core a love for God's people in other cultures, and a desire to see the Gospel take root and grow in the cultures we study. Integration of Biblical truth, Scripture application and target-language prayer and worship guide our approach to building linguistic and cultural competence in German or Spanish. Students will develop both interpretive (reading and listening) and productive (speaking and writing) skills in the target language. In addition to building holistic language proficiency through communicative tasks and comprehensible input in German or Spanish, students will also demonstrate basic knowledge of cultural practices, products, and perspectives of the culture(s) in which the language is used; gain cultural knowledge as well as knowledge in other curricular areas using the target language; demonstrate an understanding of the nature of language and culture through comparisons of the target language and culture studied and their own; and use German or Spanish both within and beyond the school setting.

GRADE SEVEN INTRO TO WORLD LANGUAGES

Prerequisite: none

Elective

Full Year

This course introduces students to the foundations of the Spanish and German languages: The students will have a full semester of Spanish followed by a full semester of German. They will learn some basic vocabulary and communicative phrases. The students will be introduced to the influences of these cultures on the American society. They will also learn about holidays, historical events, famous people, geography, and foods related to these cultures.

GRADE EIGHTH INTRO TO WORLD LANGUAGES

Prerequisite: none

Elective

Full Year

This course introduces students to the foundations of language: how languages developed, types of alphabets, language structure, and many other facets of language. Students will learn Latin, Italian, French, Japanese, German and Spanish. They will learn some basic vocabulary and communicative phrases. The students will be introduced to the influences of these cultures on the American society. They will also learn about holidays, historical events, famous people, geography, and foods related to these cultures.

GERMAN 1

Prerequisite: none

Two Years of Same Language

Full Year, 1 credit

This course is an introduction to the German language that includes reading, writing, listening, and speaking skills. It covers basic vocabulary and grammar. Students will master the sound system of German, correctly pronounce new words, communicate in basic social situations, read, and understand narratives. They will write sentences, paragraphs, or short letters with correct grammar. Culture and geography of Germany and its German speaking neighbors are incorporated into each unit of study.

GERMAN II

Prerequisite: German I

Two Years of Same Language

Full Year, 1 credit

This course builds on the language skills attained in German I and will lead to an increase of language proficiency in the German language. The students will demonstrate a solid elementary proficiency in the following areas: They will be able to express themselves in German through writing and speaking utilizing advancing vocabulary and grammar skills. They will express their opinions and preferences, sustain conversation on familiar topics, ask for information for routine problem-solving situations, and exhibit reading and aural comprehension skills by understanding details of conversations or narratives. The students will further increase their knowledge in the cultural, historical, and social aspects of the German language.

GERMAN III

Prerequisite: German II

Elective

Full Year, 1 credit

This course builds on the language skills attained in German II and will lead to an increase of language proficiency in the German language. This course is designed to expand the proficiency in the four language skills (reading, writing, speaking and listening) as emphasized by university placement tests. Students will be exposed to a variety of literary texts and material that deals with global aspects, families and communities, contemporary life, science and technology, and beauty and aesthetics.

GERMAN IV

Prerequisite: German III

Elective

Full Year, 1 credit

This course builds on the language skills attained in German III and will lead to an increase of language proficiency in the German language. This course is designed to expand the proficiency in the four language skills (reading, writing, speaking and listening) as emphasized by university placement tests. Students will be exposed to a variety of literary texts and material that deals with global aspects, families and communities, contemporary life, science and technology, and beauty and aesthetics.

SPANISH I

Prerequisite: none

Two years of same language

Full year, 1 credit

This course is an introduction to the Spanish language that includes reading, writing, listening and speaking skills. It covers basic vocabulary and grammar. Students will have sufficiently mastered the sound system of Spanish, correctly pronounce new words, communicate in basic social situations such as ordering food at a Mexican restaurant, reading and understanding narrative and writing paragraphs or short letters with correct grammar. Hispanic culture and geography are incorporated into each unit of study.

SPANISH II

Prerequisite: Spanish I

Two years of same language

Full year, 1 credit

At the completion of Spanish II, our students will have increased their proficiency in the goals attained during their first year of study. In addition, they will have demonstrated a solid elementary proficiency in the following areas: They will be able to express themselves in Spanish through writing and speaking. They will express their opinions and preferences, sustain conversation on familiar topics, ask for information for routine problem-solving situations and have reading and aural comprehension by understanding details of conversations or narratives. The students will be aware of the basic historical and social contributions of the Hispanic people and Hispanic countries.

SPANISH III

Prerequisite: Spanish II

Elective

Full year, 1 credit

To build on the foundations established in Spanish I and II, this course is designed to expand the proficiency in the four language skills (reading, writing, speaking and listening) as emphasized by university placement tests. Students will be introduced to prose and poetry in the Spanish language. Students will be expected to converse in and aurally comprehend Spanish in the classroom. The students should now be at an intermediate level in the same areas as Spanish II. Students will be able to read aloud an unfamiliar passage with the correct intonation and pronunciation and have an understanding of the written text.

SPANISH IV

Prerequisite: Spanish III

Elective

Full year, 1 credit

To build on the foundations established in Spanish I, II and III, this course is designed to expand the proficiency in the four language skills (reading, writing, speaking and listening) as emphasized by university placements tests. Students will be expected to converse in and aurally comprehend Spanish in the classroom. The students will explore literature, prose and poetry in the Spanish language, as well as other facets of the culture and history of the Spanish-speaking world. They will make connections between their backgrounds and the Hispanic culture. The students will now be at an intermediate level in the same areas as Spanish III. Students will be able to read aloud an unfamiliar passage with the correct intonations and pronunciation and have an understanding of the written text.

ADVANCED PLACEMENT (AP) SPANISH LANGUAGE AND CULTURE

Prerequisite: Spanish I, II, III, see AP Policy on pg. 9

Elective

Full year, 1 credit

This course presents a thematic approach to the exploration of Spanish Language & Culture. It requires that students demonstrate knowledge of the Spanish Culture and be able to use the language in real life settings. Families in Different Societies, The Influences of Language and Culture on Identity, Influences of Beauty and Art, How Science and Technology Affect Our Lives, Factors That Impact Quality of Life, Environmental, Political, and Societal Challenges. This course prepares students to be fluent in spoken and written Interpersonal Communication, Presentational Communication and Interpretive Communication in Spanish, which is necessary for success in this course and the AP Spanish Language & Culture exam.

ADVANCED PLACEMENT (AP) SPANISH LITERATURE AND CULTURE

Prerequisite: Spanish I, II, III, see AP Policy on pg. 9

Elective

Full year, 1 credit

This course presents a thematic approach to the study of Spanish literature and culture. The readings span from medieval to modern times, allowing students to examine the universality of literature, and make comparisons and connections through historical and contemporary cultural contexts. Students will explore the interdisciplinary connections between literary works and other artistic forms of expression such as music, painting, architecture, and film. This course prepares students to read and critically analyze representative works of Spanish literature in all genres. Students will focus on the terminology of textual analysis, learn to identify the different elements of style, and interpret texts in correct oral and written Spanish. All the works from the required reading list for AP Spanish Literature and Culture exam are read in full text form. All instruction, discussion, and writing are in Spanish to support the development of students' language proficiency necessary for success in this course and the AP Spanish Literature and Culture exam.

SPECIAL ELECTIVES

EARLY CHILDHOOD EDUCATION TEACHER ASSISTANT

Prerequisite: none

Elective for 11th or 12th

One or two semesters, .5 credit each

This class can be taken for one or two semesters and is designed to introduce students to careers in early childhood education, child development or other related fields. Experience with preschool education is gained by assisting teachers at Plymouth Christian Academy's licensed preschool. The school counselor coordinates the student's assignment with the preschool director.

ELEMENTARY EDUCATION TEACHER ASSISTANT

Prerequisite: none

Elective for 11th or 12th

One or two semesters, .5 credit each

This class can be taken for one or two semesters and is designed to introduce students to careers in elementary education or child development. Experience with elementary children is gained by assisting teachers at Plymouth Christian Academy's Elementary School. The school counselor coordinates the student's assignment with the elementary staff.

OFFICE/TEACHER AIDE

Prerequisite: none

Elective for 11th or 12th

One or two semesters, .25 credit each

Student can serve as an aide to a teacher or in the office. The student can request what teacher they would like to serve under, but the final decision of their placement is up to the school counselor, who considers all factors.

ACADEMIC STUDY HALL

Prerequisite: none

Elective

One or two semesters Pass/Fail with no credit

Students can use this study hall to do homework, make-up tests, etc. Students must attend this class as normal class attendance rules apply. This is a Pass/Fail class. The grade does not affect GPA, but it will show up on your transcript.

ACT or SAT TEST PREPARATION (Online – PrepWorks/Oxford Virtual Schools)

Prerequisite: None

Elective

Full Year, .5 credit (Pass/Fail)

PrepWorks test prep programs, powered by their multi-award winning LPS adaptive technology, deliver personalized instruction based on each student's needs. Combining hundreds of animated HD videos, thousands of practice questions with step-by-step solutions, and engaging instructional activities, PrepWorks explores essential foundational concepts and teach proven test strategies that help students significantly improve test scores.
