It is mandatory that student drivers follow the established traffic pattern as well as the posted speed limit. If a student chooses to disregard these rules, their driving privileges may be revoked and alternate transportation must be obtained.

For safety reasons, student drivers must follow specific driving regulations:

- A. Drive no faster than 5 MPH on school/church property. Always drive in a safe manner, following parking lot directions.
- B. Stay away from playground/chain area.
- C. When arriving at school, park your car and leave it immediately. Students are not to be in cars at any time except when driving or leaving school property.
- D. Students are not to drive vehicles between school and church unless granted permission by the principal/assistant principal.
- E. Students are not allowed off campus during lunch time. Seniors have off-campus lunch privileges according to their signed Lunch Contract.
- F. Students needing to leave school during regular class hours must receive written or verbal permission from the parent and must sign out and sign in at the Reception Desk.
